PROFESSIONAL SUMMARY

Frontend Engineer with 2+ years of experience developing, maintaining, and improving 25 production web applications with React, Next.js, and TypeScript, serving 600–1,000 daily active users. Experienced in frontend architecture, state management, REST APIs, real-time applications, and industrial integrations. Built and evolved scalable multi-zone, multi-repository applications and shared npm packages used across multiple projects, with a focus on maintainable and reliable software.

PROFESSIONAL EXPERIENCE

- Frontend Engineer, MAM Broiler Integration**Sep 2024 - Present
- Babol, Iran
- Migrated a monolithic frontend to Next.js Multi-Zones and multi-repository architecture, enabling independent builds and deployments across 25+ web applications.
 - Reduced build and deployment scope by 96%, with average zone build times of 8 minutes and deployment impact isolated to a single application.
 - Developed and improved features across 25+ production React, Next.js, and TypeScript applications serving 600–1,000 daily users across 10+ ERP domains, with REST APIs, state management, and real-time integrations.
 - Developed 6 shared internal npm packages for reusable components, layouts, icons, and utilities, adopted across 20+ applications by a 5-developer frontend team.
 - Integrated 10 industrial weighing systems with the ERP platform, implementing device-specific communication protocols and encoding/decoding logic across complex hardware–software interfaces.
 - Resolved production-critical hardware–software integration issues across a large-scale industrial slaughterhouse and feed factory, with 60 days of on-site troubleshooting in demanding physical and operational environments.

EDUCATION

- M.Sc., Artificial Intelligence Engineering**Sep 2025 - Present
- Mazandaran University of Science and Technology, Babol, Iran
- B.Sc., Computer Engineering**Sep 2021 - Sep 2025
- Mazandaran University of Science and Technology, Babol, Iran

SKILLS

Languages: JavaScript (ES6+), TypeScript, C#, Python
Frontend: React, Next.js, HTML, CSS, Tailwind CSS, Material UI (MUI)
State & Data: TanStack Query, Redux, Zustand, React Hook Form
APIs & Architecture: REST APIs, WebSockets, Component Architecture, Next.js Multi-Zones
Backend & DevOps: .NET, Git, Docker, CI/CD **Practices:** Agile, Scrum, Kanban, Scrumban

LANGUAGES

English (Professional working proficiency), German (Basic), Persian (Native)
